

Partnering Contractors

When the Program identifies customers that have qualifying energy efficiency improvement opportunities, the Home Energy Solutions Program will provide the customer with Entergy Arkansas sponsored incentive coupons and a list of Partnering Contractor's information. The Partnering Contractor is to respond to customers referred by the Program within 2 business days, and provide services in accordance with the Program's Best Practices Efficiency Standards. The following is a brief summary of these standards.

- Deliver promised services in a timely and responsible matter.
- Maintain any relevant licenses required by federal, state, county or municipal governments or any other agencies with jurisdiction over work performed in the Program.
- Maintain general liability insurance coverage.
- Provide the customer a written warranty of labor and materials for a minimum of one (1) year from the date the service is performed. Equipment installed shall carry manufacturer's warranty, including optional extended warranty coverage.
- Provide a customer complaint resolution process.
- Allow random field inspections, by the Program, of work that has been performed. The contractor, upon request from the Program, and at no additional cost to the customer, shall make reasonable repairs or corrections to work that the Contractor has performed to bring such work up to the Program's Best Practices Efficiency Standards.
