RT

36.0. AGRICULTURAL IRRIGATION LOAD CONTROL SERVICE RIDER

RT

36.1. AVAILABILITY

This Agricultural Irrigation Load Control Service Rider ("Rider") is offered in conjunction with the Entergy Arkansas, Inc. ("EAI" or the "Company") Agricultural Irrigation Load Control Program ("Program") developed pursuant to the Arkansas Public Service Commission's Rules for Conservation and Energy Efficiency Programs. This Rider is offered to customers signing EAI's Agricultural Irrigation Load Control Service Rider Agreement ("Agreement") and who are currently taking service under EAI's Rate Schedule No. 14 (Agricultural Water Pumping Service). To participate in the Program, an eligible customer must permit the Company to install a control device so that Company can control the operation of the Customer's pumping plant during periods of Company's peak load conditions. This Rider will be in effect for the time period defined in § 36.4, Contract Period.

RT

RT

RT

36.2. CREDIT

The Customer will receive a credit per kW based on the current month's established billing load as shown below for each of the Customer's three peak billing months, June, July and August, or July, August and September depending on the cycle in which the Customer is billed pursuant to the Company's Agricultural Water Pumping Service Rate Schedule, AP, § 14.4.4. Said credit shall not exceed 30% of the Customer's bill before the application of adjustments.

CT

Demand Credit per kW: \$4.16 per month

The Company shall have the right to interrupt service to the pumping unit for up to 3 hours per day excluding weekends and holidays from June 1st through August 31st (the Peak Billing Season). The period during which service interruptions may occur shall begin at noon and end at 9:00 PM.

Company reserves the right to change the hours of interruption at the beginning of each Peak Billing Season.

RT

36.3. OTHER PROVISIONS

36.3.1. The Customer shall be responsible for the repair and maintenance of Customer's equipment including the pumping unit and for keeping such unit in good repair and working order.

(CT)

36.3.2. The Company shall be responsible for the repair and maintenance of Company's equipment including the control unit.

36.3.3. If the operation of the control unit is unsatisfactory to Customer, upon notification by Customer, Company will promptly remove its control unit and Customer will repay to Company the amount of any credit previously made on Customer's bill during the current season.

36.3.4. If there is evidence of alteration of or tampering with Company's control unit, Customer will reimburse Company for the cost of replacement or repair of the control unit and the credit to Customer's bill during the season as defined in the Company's Agricultural Water Pumping Service Rate Schedule (AP) and Company may cancel the agreement and remove its control unit. If Company elects to cancel the agreement and remove its control unit as a result of tampering, Customer will pay to Company its removal cost.

36.3.5. Customer agrees to allow Company representatives to have access to the pumping unit for the purpose of installing, testing, and maintaining the remote control unit.

36.4. CONTRACT PERIOD

The term of the Agreement shall be during the usage months of June, July and August of the current year and shall be automatically extended for successive usage periods in the following year until terminated by written notice given by the Customer to the Company not less than three months prior to the expiration date of the original term or any anniversary thereof. The Company reserves the right to cancel the agreement as provided by § 36.3.4 of Rider AILCSR in the event of tampering or upon termination of the program.

36.5. SERVICE REGULATIONS

Service under this schedule is subject to Policy Schedule No. 9, Service Regulations, of the Company as it is now on file, and as it may in the future be filed, with the APSC and all other applicable Commission Rules.
