BOT Agreement Term Sheet

The following term sheet (this “**Term Sheet**”) describes certain terms and conditions of a potential agreement between Buyer (as defined in item 2 below) and the seller proposed by the applicable bidder (“**Bidder**”) in Bidder’s proposal submitted pursuant to the RFP (“**Seller**” and, together with Buyer, the “**Parties**”) for the purchase by Buyer of a developmental combined-cycle combustion turbine (CCCT) resource meeting the requirements of the RFP, together with related assets. The terms and conditions set forth in this Term Sheet will establish the basis for the negotiation and execution of a definitive agreement between Buyer and each Seller whose proposal is selected by Buyer for contract negotiations (together with any agreements and other documents ancillary thereto, the “**Definitive Agreement**”), with necessary changes to accurately reflect any special exceptions set forth in Bidder’s proposal that are accepted by Buyer in its sole and absolute discretion. Buyer will provide the initial draft of the Definitive Agreement to the selected Bidder (if any) at the beginning of contract negotiations.

If Bidder is unable or unwilling to accept one or more of the terms and conditions in this Term Sheet or wishes to propose any alternate or additional terms or conditions, Bidder should indicate in the “Special Considerations” section of its Proposal Package (i) the terms and conditions to which Bidder takes exception, describing with specificity any terms and conditions that Bidder proposes in substitution therefor, and/or (ii) the additional terms and conditions that Bidder proposes as a supplement to the terms and conditions in this Term Sheet. Bidder is advised to refer to Section 2.3 in the Main Body for additional information and requirements pertaining to Special Considerations. In this Term Sheet, the term “including” will be construed to mean “including, without limitation,” and any capitalized term used but not defined in this Term Sheet will have the meaning ascribed to such term in Appendix A to the RFP.

	Proposal Term	Description of Proposal Term
1	Product Description:	The product described in this Term Sheet is designated as the “ Asset Acquisition-Developmental Resource (B-O-T) Product .” This product provides for flexible generation capacity from 600 to 800 MW (at full load, including duct-firing if included as part of the resource) of net nameplate capacity (measured at the Electric Interconnection Point (as defined in item 5 below)) under Summer Conditions (“ Summer Rated Capacity ”) from a designated developmental CCCT resource capable of meeting the requirements of this Product.
2	Buyer:	“ Buyer ” will be Entergy Arkansas, LLC (“ EAL ”) or its designee. For purposes of the RFP and the Definitive Agreement, Buyer will be considered an entity entirely separate and distinct from, and unaffiliated with, any Entergy transmission organization (including the EAL transmission organization), and, without limiting the foregoing, the acts and omissions of any Entergy transmission organization will not be deemed to be acts and omissions of Buyer or its affiliates for any purpose arising out of or relating to the RFP or the Definitive Agreement.
3	Seller:	“ Seller ” will be the party specified by Bidder in the applicable proposal.
4	Facility:	The “ Facility ,” including the nameplate capacity and major equipment, will be as specified by Bidder in the applicable proposal in accordance with the terms of

The statements contained in this Term Sheet are made subject to the Reservation of Rights set forth in Appendix D of the RFP and the terms and acknowledgements set forth in the Proposal Submission Agreement.

		the RFP.
5	Electric Interconnection/ Transmission Service:	<p>The “Electric Interconnection Point” will be a point where the Facility will be interconnected to the host utility (and represented by a CP Node), as specified by Bidder in the applicable proposal. The Electric Interconnection Point must be located in Local Resource Zone 8 of the MISO Transmission System (“LRZ-8”). (Section 1.2 of the Main Body shows a map of LRZ-8.) The Electric Interconnection Point must be consistent with Bidder’s generator interconnection application submitted to MISO for the Facility prior to submission of the applicable proposal under the RFP.</p> <p>Seller will be responsible for (and will bear the full costs and risks of) the arrangement, procurement, and receipt by the Closing (as defined in item 6 below), and (subject to item 11 below) operation and maintenance through the Substantial Completion Payment Date (as defined in item 17 below), of the interconnection, deliverability, and transmission facilities and service required for the Facility and for Full Deliverability (as defined below), including (i) the arrangement, procurement, payment for, construction, installation, and readiness for energization by Closing, and subsequent energization, operation, and maintenance (subject to item 11 below) through the Substantial Completion Payment Date, of the Facility electric interconnection facilities and any system interconnection and transmission upgrades (including any coordination with the host utility and transmission provider with respect thereto); (ii) by no later than the Closing, the establishment and recognition by MISO and other applicable balancing authorities of (A) the Facility as a separate generating resource at the Electric Interconnection Point, including for settlement, scheduling, offering, and bidding purposes, and (B) the Electric Interconnection Point as a separate (and the exclusive) CP Node for the Facility (the “Required Facility Recognition”); and (iii) by no later than the Closing, (A) the receipt by the Facility of energy resource interconnection service (“ERIS”) that equals or exceeds the rating of the Facility at defined Winter Conditions and relative humidity (including duct-firing if included as part of the Facility) and network resource interconnection service (“NRIS”)¹ that equals or exceeds the Guaranteed Capacity (as defined in item 19 below), (B) full deliverability of at least the Guaranteed Capacity from the Facility to Buyer’s load on a firm network resource basis for the life of the Facility, and (C) qualification and recognition by MISO of the Facility as a firm network resource and, if sought, Capacity Resource (as defined in the MISO rules) with such level of deliverability (collectively, “Full Deliverability”).</p> <p>Seller will be responsible for causing Buyer to obtain all auction revenue right</p>

¹ **NTD:** This Term Sheet assumes that Seller will obtain NRIS for the Facility. If Bidder has proposed a BOT Transaction where the MISO transmission service for the Facility will be network integration transmission service (“**NITS**”) instead of NRIS, the terms of the Definitive Agreement will include terms and conditions reflecting and accounting for the change to NITS, including, without limitation, the terms under which Buyer will seek to obtain NITS for the Facility at Seller’s sole cost, expense, and risk.

The statements contained in this Term Sheet are made subject to the Reservation of Rights set forth in Appendix D of the RFP and the terms and acknowledgements set forth in the Proposal Submission Agreement.

		<p>allocations, financial transmission or congestion rights, and other similar allocations and entitlements associated with the Facility, and, if requested by Buyer, will act (at Seller’s expense) at Buyer’s reasonable direction in connection therewith. Without limiting the foregoing, Seller will support fully, and not take any action or position to oppose or prevent, Buyer’s entitlement to or receipt of such allocations and entitlements.</p>
<p>6</p>	<p>Closing:</p>	<p>The closing of the sale and purchase of the Closing Assets (as defined in item 7 below) (the “Closing”) will occur ten (10) business days following the day the Facility has achieved Mechanical Completion (as defined in item 13 below) and all other Closing conditions (as detailed in items 13 and 14 below) have been satisfied (and continue to be satisfied through the Closing) or waived by the applicable Party. At the Closing, Seller will transfer to Buyer the Closing Assets, free and clear of all encumbrances and liabilities, except Permitted Encumbrances (as defined below) and assumed liabilities as defined in the Definitive Agreement.</p> <p>Additional asset transfers from Seller to Buyer will occur after the Closing with respect to assets incorporated into, or acquired for or in connection with, the Facility during start-up, testing, and commissioning, during punch list completion, as part of achieving Substantial Completion (as defined in item 18 below) and Final Completion (as defined in item 20 below), and in connection with any warranty work performed by or for Seller.</p> <p>For purposes of the Definitive Agreement, “Permitted Encumbrances” will be limited to (i) liens for property taxes and other governmental charges not yet due and payable or the validity of which is being contested in good faith by appropriate proceedings described in a schedule attached to the Definitive Agreement (<u>provided</u> that, for any such lien from and after the Closing, Seller will be required to maintain (A) a bond covering such lien at a ten percent (10%) premium in accordance with law or otherwise in a manner reasonably satisfactory to Buyer or (B) full coverage under the title insurance policy provided by Seller to Buyer for the Facility), (ii) mechanic’s, materialman’s, and other similar liens arising in the ordinary course of the performance of the Work (as defined below in item 10) by operation of law for sums not yet due and payable and that have not been filed of record (<u>provided</u> that, for any such lien from and after the Closing, Seller will be required to maintain (A) a bond covering such lien at a ten percent (10%) premium in accordance with law or otherwise in a manner reasonably satisfactory to Buyer or (B) full coverage under the title insurance policy provided by Seller to Buyer for the Facility), (iii) any financing and other liens described in a schedule attached to the Definitive Agreement that will be and are discharged or released prior to or simultaneously with the Closing, (iv) liens benefitting, or created by, through, or under, Buyer, (v) matters expressly identified on the title commitment to which Buyer does not object during the title objection process described in item 41 below, and (vi)</p>

		liens expressly agreed to or waived in writing by Buyer.
7	Closing Assets:	<p>The “Closing Assets” will be the Facility and real and personal property assets, properties, and rights, of every kind and nature, of Seller and its affiliates relating to, generated by, used by or for, or held for use by or for, the Facility or the operation, maintenance, ownership, possession, use, replacement or repair thereof, <u>except</u> those expressly excluded under the Definitive Agreement (the “Excluded Assets”). Examples of Closing Assets include all equipment, systems, parts, fixtures, goods, inventory (including capital and non-capital spares), permits, books, records, documents, drawings (including AutoCAD), reports, logs, operating data, operating safety and maintenance manuals, inspection reports, registrations, engineering design plans, design drawings, specifications and procedures, and similar items (including turnover manuals), intellectual property rights, real property and related rights (including rights with respect to the Facility site, including easements, licenses, and rights-of-way),² water rights and contracts, fuel interconnection, supply (subject to the following paragraph), and transportation contracts, electric interconnection, transmission, distribution, and related contracts, credits, or other rights, capacity credits and rights to any other capacity-related benefits, emissions allowances, environmental attributes, tax credits, abatements, and similar benefits, licenses, and contracts and unexpired warranties, indemnities, or guarantees relating to, generated by, used by or for, or held for use by or for, the Facility or the operation, maintenance, ownership, possession, use, replacement or repair thereof, <u>excluding</u> any of the foregoing that are Excluded Assets.</p> <p>Buyer will not be required (whether at the Closing or thereafter) to acquire any EPC or other subcontract for the Work (but shall be entitled to receive the Subcontractor Warranties (as defined in item 31 below) therein), fuel supply contracts, long-term service agreement for the generating units, operations and maintenance agreement, Work-related permits (other than any such permits that (i) are required between Closing and the Substantial Completion Payment Date and must be held in the name of Buyer, as owner of the Facility, and cannot be held by Seller or any affiliate, contractor, or subcontractor thereof or (ii) are also required for the ownership, use, operation, or maintenance of the Facility or other purchased assets, including the project site, after the Substantial Completion Payment Date), or any contracts, permits, or other rights (or associated obligations) that have not been entered into or obtained and maintained according to the Definitive Agreement, all of which will be considered Excluded Assets under the Definitive Agreement. For this purpose, any new contracts, permits, or other rights (including modifications to previously approved contracts, permits, and other rights) will require the approval of Buyer.</p>

² **NTD:** Buyer’s strong preference is to acquire ownership of the project site for its long-term owned conventional generation facilities. Accordingly, this Term Sheet assumes that Seller will hold and transfer to Buyer fee ownership of the project site. If such assumption does not hold, modifications to this Term Sheet will be required.

The statements contained in this Term Sheet are made subject to the Reservation of Rights set forth in Appendix D of the RFP and the terms and acknowledgements set forth in the Proposal Submission Agreement.

		<p>in Buyer’s sole and absolute discretion, in order to be included in the Closing Assets or any subsequent transfer of assets. There will also be specific baseline requirements applicable to the procurement of Subcontractor Warranties, intellectual property rights, certain other contracts, and certain permits.</p> <p>While Seller will be responsible, as part of the Work, for procuring (in compliance with the Definitive Agreement) fuel supply contracts required for the Facility through the Substantial Completion Payment Date and otherwise for the Work, Seller will not be responsible for, and Buyer will negotiate its own, fuel supply contracts other than those described above. In addition, Seller will not be responsible for, and Buyer will negotiate on its own, any desired long-term service agreement and/or operations and maintenance agreement for the period after the Substantial Completion Payment Date.</p> <p>Based on diligence conducted by or for Buyer, Buyer may require fuel interconnection and transportation contracts (in each case, acceptable to Buyer in its sole and absolute discretion) and certain other arrangements (such as, for example, certain real estate or water rights and contracts) to be in place prior to execution of the Definitive Agreement.</p> <p>Buyer will not own, acquire title to, or pay for any of the Closing Assets (or any other assets) prior to the Closing.</p>
8	<p>Purchase Price and Payment Terms:</p>	<p>The purchase price for the Closing Assets and subsequent asset transfers (the “Purchase Price”) will be as specified by Bidder in the applicable proposal, subject to adjustments set forth in the Definitive Agreement, including adjustments reflecting (i) the final tested Summer Rated Capacity of the Facility, with and without duct-firing if included as part of the Facility (see item 19 below), (ii) the final tested net heat rate of the Facility (at full load, without duct-firing if included as part of the Facility) adjusted to Summer Conditions (see item 19 below), (iii) the final tested net heat rate of the duct-firing capacity of the Facility (if included as part of the Facility) at full load adjusted to Summer Conditions (see item 19 below), (iv) change orders issued to Seller in Buyer’s discretion, (v) change orders for the actual increased direct costs incurred by Seller as a result of Buyer-Caused Delay (as defined in item 28 below), (vi) the proration of specified proratable items (e.g., property taxes) as of the Substantial Completion Payment Date, (vii) set-offs permitted in the Definitive Agreement, and (viii) other items specified in this Term Sheet or the Definitive Agreement.</p> <p>The Purchase Price will be payable as follows:</p> <ul style="list-style-type: none"> (i) 75% of the Purchase Price will be paid at the Closing. (ii) The remainder of the Purchase Price will be paid on the Substantial Completion Payment Date, less an amount (the “Final Completion Holdback”) equal to the greater of (A) 175% of the agreed estimated costs to complete any punch list items for the Facility as specified in the agreed punch list for Substantial Completion (“Agreed Punch

If all Non-Pecuniary Punch List Items and Agreed Punch List have not been completed by the Final Completion Expiration Date, the Final Completion Holdback will be released as provided in item 21 below.</p> <p>The Purchase Price will not be earned or payable except as set forth above.</p>								
<p>9</p>	<p>Seller Credit Support:</p>	<p>Seller will deliver to Buyer and maintain in favor of Buyer a letter of credit issued by a U.S. commercial bank or U.S. branch office of a foreign bank with (i) a local long-term issuer credit rating of “A-” or better by S&P and a senior unsecured long-term debt rating of “A3” or better by Moody’s (or, if the issuer has a local long-term issuer credit rating by S&P or a senior unsecured long-term debt rating by Moody’s, but not both, a local long-term issuer credit rating of “A-” or better by S&P or a senior unsecured long-term debt rating of “A3” or better by Moody’s) and (ii) total assets of at least \$10,000,000,000. Such letter of credit will secure Seller’s obligations under the Definitive Agreement and must be adjusted to equal the following amounts at each of the following adjustment dates, subject to the immediately following paragraph and to item 46 below:³</p> <table border="1" data-bbox="500 1184 1474 1610"> <thead> <tr> <th>Adjustment Date</th> <th>Amount</th> </tr> </thead> <tbody> <tr> <td>Execution of Definitive Agreement</td> <td>\$17,500 per MW of Guaranteed Capacity</td> </tr> <tr> <td>FNTP (as defined in item 12 below)</td> <td>\$120,000 per MW of Guaranteed Capacity</td> </tr> <tr> <td>Closing</td> <td>25% of the Purchase Price, excluding Purchase Price adjustments other than pursuant to change orders issued to Seller in Buyer’s discretion or resulting from Buyer-Caused Delay</td> </tr> </tbody> </table>	Adjustment Date	Amount	Execution of Definitive Agreement	\$17,500 per MW of Guaranteed Capacity	FNTP (as defined in item 12 below)	\$120,000 per MW of Guaranteed Capacity	Closing	25% of the Purchase Price, excluding Purchase Price adjustments other than pursuant to change orders issued to Seller in Buyer’s discretion or resulting from Buyer-Caused Delay

³ **NTD:** As detailed in Appendix E to the RFP, the credit support amounts to be supplied by Seller at the Closing and thereafter may also be provided in the form of a cash holdback of the Purchase Price or a combination of letter(s) of credit and a cash holdback. For simplicity, this Term Sheet assumes the liquid credit support will be provided in the form of a letter of credit.

<p>10</p>	<p>Seller’s Work:</p>	<p>Seller will be responsible for all items, services, and work necessary or advisable to, among other things, (i) develop, finance, design, engineer, manufacture, procure, supply, transport, deliver to and unload at the Facility site, store, perform preventative maintenance during storage, assemble, erect, construct, install, test, start-up, commission, and otherwise provide to Buyer a complete, fully functional, and fully developed Facility that meets the performance standards specified in the Definitive Agreement (including all permits and other assets, properties, rights, and interests necessary or advisable for Buyer to operate, maintain, own, possess, deliver power to the Electric Interconnection Point from and otherwise use, replace, and repair the Facility from and after the Closing), (ii) consummate the transactions contemplated by the Definitive Agreement, and (iii) perform Seller’s other obligations under the Definitive Agreement as and when due thereunder (the “Work”). The Work will include all items, services, and work that are incidental to or reasonably can be inferred to be part of the scope described above, even if not specifically mentioned in the Definitive Agreement. All Work will be required to be performed in accordance with (and so that the Facility complies with and can be operated according to) the performance standards specified in the Definitive Agreement, including, among other things, prudent utility practices, applicable laws, permits, and other legal or quasi-legal (e.g., balancing authority, NERC, ISO) requirements, manufacturers’ manuals, requirements, specifications, and recommendations, Seller’s quality management plan, applicable insurance requirements, Buyer’s technical specifications (including the Scope Book), the Facility Warranty (as defined in item 31 below) and Subcontractor Warranties, the requirements of the Definitive Agreement, and the third-party contracts relating to the Facility.</p> <p>Seller will retain responsibility (including financing, project execution, and construction risk) for the Work at all times prior to completion of the Work, including during the period between the Closing and Final Completion.</p>

Seller will be required to reimburse Buyer on a monthly basis for any such costs and expenses that are incurred by Buyer, and any such amounts that have not been reimbursed by Seller by the Substantial Completion Payment Date will be offset against the payment of the Purchase Price due to Seller on that date. Notwithstanding the foregoing, from and after the date on which the Facility achieves initial synchronization with the host utility, Seller will not operate, or sell or deliver any electric energy, capacity, or other electric product from or attributable to, the Facility other than to conduct required performance testing under the Definitive Agreement or as instructed by Buyer (which instructions may be provided by Buyer under the MISO Agreement) to comply with MISO requirements applicable to the Facility, including any requirements that apply as a result of Buyer’s offer (in its sole and absolute discretion) of Facility MISO Capacity Credits into any MISO planning resource auction (or successor process) and/or the acceptance thereof by MISO.</p> <p>Also without limiting the first paragraph of this item 11, Seller will be responsible for the security of the Facility and the Facility site through the Substantial Completion Payment Date. Through a partial assignment, Seller will transfer (or cause to be transferred) to Buyer such warranties and guaranties (together with any credit support and indemnities therefor) and (without duplication) all supplier and other contractor and subcontractor warranties and other warranties, indemnities, guarantees, and similar contract rights related to the Facility and benefitting Seller (collectively, the “Subcontractor Warranties”) at the Closing or, for assets to be transferred to Buyer after the Closing, upon the transfer of title of such assets to Buyer. Buyer will provide to Seller the benefit of responsive warranties, indemnities, guarantees, and contract rights transferred to Buyer in the event that Buyer makes a claim under the Facility Warranty.</p>
32	Insurance:	<p>Seller will procure and maintain, at its expense, with qualified insurers, appropriate types and agreed levels of insurance to protect against typical project development, EPC, and ownership risks, including worker’s compensation, business auto liability, comprehensive general liability, errors and omissions, equipment, excess liability (the combined limits of the excess and umbrella liability coverages are expected to be approximately \$[50] million), and full project replacement value builder’s all risk insurance (covering insured occurrences through the Substantial Completion Payment Date with per occurrence deductibles of not more than five percent (5%) for earthquakes, named windstorms, and floods and not more than \$[500,000] for all other losses or damages, and policy sublimits (if any) that Buyer has agreed to accept), along with insurance required by applicable laws, lenders or other third-party persons financing the Facility (if any), or applicable contracts. Certain insurance will be required to be in effect on the signing date of the Definitive Agreement and certain insurance will be required to be provided initially and in effect by FNTF. Subject to limited exceptions, Buyer, its affiliates, and other specified parties will be additional insureds on the foregoing policies. The insurance policies will be Facility-specific, primary to Buyer’s policies, require Seller to waive subrogation rights against Buyer, its affiliates, and other specified parties, have stipulated deductible maximums, and contain other customary terms. Seller will cause its agents and contractors of any tier to carry appropriate levels of insurance and will provide to Buyer specified insurance-related notices, reports, and certifications. Insurance will be required to be obtained from reputable, qualified insurers having a rating of “A-VII” or better by A.M. However, to the extent such real property rights (acceptable to Buyer in its sole and absolute discretion) are not in place prior to execution of the Definitive Agreement, the Definitive Agreement will set forth Seller's planned real property rights and contain limitations on deviations therefrom.</p> <p>Seller will, at its sole cost and expense, deliver the following to Buyer no later than thirty (30) days after the execution date of the Definitive Agreement (based on planned real property rights, to the extent all real property rights are not in place prior to such time): (i) a title commitment from a mutually agreed upon title insurance company meeting specified requirements insuring Buyer's fee, easement, and other real property interests, as applicable, in, or appurtenant to, the Facility site, the associated improvements and easements, and all insurable appurtenances, subject only to Permitted Encumbrances, in an amount specified by Buyer and with endorsements that Buyer may reasonably require; (ii) complete and legible copies of all exception documents listed in the title commitment; and (iii) a ALTA land title survey of the Facility site meeting specified requirements. 	<p>the title commitment or (2) any title exception is not a Permitted Encumbrance, or that Buyer reasonably believes could adversely affect Buyer’s use and enjoyment of the Project described herein, or (b) the survey discloses any matter that is not a Permitted Encumbrance or is or represents a change in the physical location, configuration, or layout of the Facility (in whole or in part) that results in any encroachment onto an otherwise Permitted Encumbrance or the need for additional access rights or Consents, <u>then</u> Buyer may notify Seller in writing of such title objection no later than ninety (90) days after receiving the latest of the title commitment, the exception documents, or the survey. Seller will, at its sole cost and expense, cure each title objection and take all steps required by the title company to eliminate each title objection as an exception to the title commitment. Seller may elect to provide a notice to terminate the Definitive Agreement if the aggregate cost to cure the identified title objections exceeds eight percent (8.0%) of the Purchase Price, and any such termination will be treated as a termination by Buyer for cause giving rise to a Seller termination payment. Buyer will have the right to prevent the termination provided for in any such notice by notifying Seller within a specified period of its election to waive title objections such that the cost cap will not be exceeded or to agree to pay, through an increase to the Purchase Price, the cost above the cost cap to cure the title objections.</p> <p>In the event that Seller acquires any real property rights after the issuance of the title documentation described in the immediately preceding paragraph (including, to the extent such title documentation was based on planned real property rights, upon Seller acquiring the actual real property rights), Seller shall provide updated title documentation no later than fifteen (15) days after such acquisition and repeat the process above (except that the title objection period shall be thirty (30) days, instead of ninety (90) days, after Buyer’s receipt of the latest of the title commitment, the exception documents, or the survey). The foregoing will apply each time new real property rights are acquired after the issuance of the title documentation described in the immediately preceding paragraph.</p> <p>No later than thirty (30) days prior to the Closing, Seller will (i) at its sole cost and expense, furnish to Buyer (A) an updated title commitment having an effective date no earlier than thirty (30) days prior to the Closing and (B) an “as-built” update to the original survey that reflects the completion of the Work, and (ii) repeat the process in the second paragraph of this item 41 (except that the title objection period shall be twenty (20) days, instead of ninety (90) days, after Buyer’s receiving the latest of the title commitment, the exception documents, or the survey).</p> <p>The last two bullet points of item 36 above include termination rights in favor of Buyer related to the title process described in this item 41. None of the timeframes specified in this item 41 (including those for delivery of title documentation) extend, or should be interpreted to extend, the deadlines</p>

		specified in the last bullet point of item 36 above.
42	Certain Employment, Benefits, and Labor Matters:	The Definitive Agreement will contain several Seller representations, covenants, and agreements regarding employment, employee benefits, and labor matters, including Seller representations to Buyer that none of Seller or any of its affiliates has, or ever has had at any time, any employee engaged primarily in Facility Services (as defined in the Definitive Agreement), that no employee of Seller or any affiliate of Seller that provides or has provided Facility Services is or has been covered by a collective bargaining agreement or any other labor agreement applicable to Seller or any of its affiliates (a “CBA”); that no employee of any contractor or subcontractor of Seller or its affiliates is covered by a CBA that would require any successor employer to assume or honor any portion of such CBA and that none of Seller or any affiliates of Seller (including “ERISA affiliates”) sponsors, maintains, participates in, contributes to (or owes contributions to), or has any liability with respect to benefit plans and arrangements specified in the Definitive Agreement, including qualified pension plans, multiemployer plans, multiple employer plans, or multiple employer welfare arrangements. Seller will make additional representations to Buyer regarding Seller and its affiliates’ compliance with applicable labor, employment and employee benefit laws, the nonexistence of encumbrances, liens and other liabilities relating to benefit plans, and the termination of tax-qualified pension plans, and the nonexistence of any liability or obligation to provide post-termination or post-employment health, life, or other welfare benefits or under the Affordable Care Act.
43	Transition Services:	In connection with the negotiation of the Definitive Agreement, Buyer may determine that it desires Seller to provide, or desires to have the contractual right after contract execution to require Seller to provide, for a reasonable period of time after the Substantial Completion Payment Date, any transition service that Buyer reasonably requests and Seller is reasonably capable of providing. If Buyer makes such a determination, Seller would provide the requested transition services on terms negotiated by the Parties, with Buyer reimbursing Seller for its documented out-of-pocket costs reasonably incurred and necessary to perform such services in accordance with the terms of the Parties’ agreement. For the avoidance of doubt, the scope of transition services would exclude Seller’s Facility Warranty work and other services required under other provisions of the Definitive Agreement to be provided by or for Seller for the benefit of Buyer.
44	Transaction Expenses:	Except as otherwise provided in the Definitive Agreement, the Party incurring costs in connection with the transactions will be responsible for paying them. In addition to the taxes allocated to Seller as described in item 39 above, Seller will pay all (i) documentary, recording, contractual (including license), consent, and other conveyance or assignment charges, fees, and other costs related to the purchase and sale of the Facility and related assets (including permit transfer fees), (ii) survey, filing, and/or recording costs, fees, or similar charges with

Except as provided in clauses (ii) and (iii) above, Buyer will pay for the title commitment and the title policy.</p>
45	<p>MISO Agreement:</p>	<p>As part of the transactions contemplated by the Definitive Agreement, Seller and Buyer will enter into an agreement setting forth the terms and conditions that, as between the Parties, will govern and apply with respect to certain MISO matters applicable to the Facility (the “MISO Agreement”). Subject to the terms of the MISO Agreement, Buyer (or its designee) will serve as the “market participant” for the Facility in MISO (the “Market Participant”). As the Market Participant, Buyer (or its designee) will represent the Facility in MISO and have the right to execute and submit documents and take (or refrain from taking) other actions in its capacity as the Market Participant, subject to certain limitations set forth in the MISO Agreement applicable prior to the Substantial Completion Payment Date, including the general limitations that (i) Buyer will submit such documents and take and refrain from taking such other actions as the Market Participant that Seller reasonably directs Buyer to submit or to take or not take pursuant to Seller’s instructions provided in accordance with the MISO Agreement solely to the extent necessary and reasonable for Seller to (a) perform its obligations under and in accordance with the Definitive Agreement and applicable laws or (b) dispute with MISO the amount of any cost, charge, payment, or credit assessed against or provided to Buyer (or its designee) as the Market Participant and allocated to Seller pursuant to the MISO Agreement and (ii) Buyer will not offer products from the Facility into the MISO market other than (a) as instructed by Seller solely to the extent necessary and reasonable for Seller to conduct required performance testing under the Definitive Agreement, (b) solely to the extent elected by Buyer in its sole and absolute discretion, Facility MISO Capacity Credits, or (c) as deemed necessary by Buyer to comply with MISO requirements applicable to the Facility. Seller will be responsible for the out-of-pocket costs and charges reasonably incurred by Buyer (or its designee) in its capacity as the Market Participant and all MISO costs and charges with respect to the Facility and participation in the MISO markets that relate to the period before the Substantial Completion Date, including costs with respect to any transaction involving the Facility or the representation of the Facility by the Market Participant, but excluding, solely in the case that Buyer (in its sole and absolute discretion) offers Facility MISO Capacity Credits into the MISO planning resource auction (or successor process) for any MISO planning period prior to a Relevant MISO Planning Period (as defined in item 46), Buyer’s offer is accepted by MISO, and the Substantial Completion Payment Date does not occur prior to the start of such MISO planning period (and without limiting Seller’s obligations (including for Lost Capacity Credit</p>

		<p>LDs, if applicable) described in item 46 below), any penalties assessed by MISO solely as a result of the Facility not meeting, during the portion of such Relevant MISO Planning Period until the Substantial Completion Payment Date, its MISO obligations that apply solely as a result of Buyer’s offer of Facility MISO Capacity Credits being accepted by MISO (the “MISO Capacity Penalties”). Seller will be entitled to all MISO payments and credits attributable to the Facility (excluding any Facility MISO Capacity Credits and related payments) that relate to the period before the Substantial Completion Payment Date. If Buyer (or its designee) is the Market Participant and the Definitive Agreement terminates (other than in the case of a termination where Buyer acquires Seller’s rights and interest in the Facility), Seller and Buyer will, at Seller’s sole cost and expense, cause MISO to qualify and recognize Seller (or its designee) as the Market Participant at the earliest possible time after such termination event in accordance with the MISO rules. Buyer may net or set-off any MISO cost or charge or other cost or charge payable by Seller to Buyer under the MISO Agreement against any MISO or other payment or credit payable by Buyer to Seller and/or against any other amount payable by Buyer to Seller under the Definitive Agreement or any ancillary agreement. In its capacity as the Market Participant for the Facility, Buyer (or its designee) will (at Seller’s direction, cost, and risk, except to the limited extent provided above with respect to offers of Facility MISO Capacity Credits and related payments and MISO Capacity Penalties), among other things, register the Facility in MISO’s commercial models, arrange with MISO capacity demonstration and any other testing of the Facility required or desired under the MISO Rules (e.g., the “GVTC” test), offer energy from the Facility into the MISO markets during tests of the Facility, and financially settle with MISO (for subsequent allocation between the Parties as set forth above) on matters related to the Facility. Buyer expects to settle test energy deliveries from the Facility through financial schedules with MISO.</p>
<p>46</p>	<p>Capacity Accreditation:</p>	<p>Buyer expects to receive a quantity of Facility MISO Capacity Credits that equals or exceeds the Applicable ZRC Fraction (as defined below) of the Guaranteed Capacity for each Relevant MISO Planning Period. “Applicable ZRC Fraction” means [●].⁶ “Relevant MISO Planning Period” means any MISO season or comparable planning period occurring after the Guaranteed Substantial Completion Date (as defined in item 18 below) in a MISO planning year commencing after the Guaranteed Substantial Completion Date (as defined in item 18 below). If, by fifteen (15) days prior to the deadline for registration of resources (including the Facility) into the MISO planning resource auction (or successor process) (the “MISO Capacity Auction Deadline”) applicable to any Relevant MISO Planning Period, the Substantial Completion Payment Date has not occurred, then Seller will provide to Buyer, by no later than ten (10) days</p>

⁶ The Applicable ZRC Fraction is expected to be approximately the MISO class average for new CCCTs as of a specified number of days prior to the applicable MISO Capacity Auction Deadline.

	<p>prior to the MISO Capacity Auction Deadline for such Relevant MISO Planning Period, a quantity of MISO zonal resource credits or other applicable capacity credits (or the equivalent) sourced from other resources within Buyer’s local resource zone (“Replacement MISO Capacity Credits”) equal to the Applicable ZRC Fraction of the Guaranteed Capacity. For any Replacement MISO Capacity Credits that Seller does not provide to Buyer (<u>provided</u> that Seller will first be required to use best efforts to provide such Replacement MISO Capacity Credits) as required above, Seller will pay to Buyer, pursuant to a reduction in the portion of the Purchase Price payable on the Substantial Completion Payment Date (or, if the Definitive Agreement is terminated prior to the Substantial Completion Payment Date, as part of the corresponding termination close-out), an amount equal to (i) the product of (a) the auction clearing price (or successor concept) resulting from the MISO planning resource auction (or successor process) for such Relevant MISO Planning Period applicable to a Replacement MISO Capacity Credit or, if Buyer (as market participant for its load), despite good faith efforts, does not procure sufficient Replacement MISO Capacity Credits in such MISO planning resource auction (or successor process) to cover its resource adequacy requirements, the capacity deficiency charges, which could be “cost of new entry” (CONE), and other costs and charges imposed by MISO and other applicable governmental authorities with respect to the shortfall in the MISO zonal resource credits or other applicable capacity credits (or the equivalent) of Buyer to cover its resource adequacy requirements), in either case, as annualized to cover the applicable amount over the full Relevant MISO Planning Period and expressed in \$/MW, multiplied by (b) the amount of Replacement MISO Capacity Credits that Seller so failed to transfer, plus (ii) interest on the amount described in clause (i) at the prime lending rate plus 2% (not to exceed the maximum rate permitted by law) from the date on which Replacement MISO Capacity Credits were required to be transferred to Buyer until the date payment is made by Seller as described above (the “Lost Capacity Credit LDs”). For the avoidance of doubt, the foregoing obligations of Seller to provide Replacement MISO Capacity Credits (or pay Lost Capacity Credit LDs in lieu thereof) according to this item 46 with respect to a Relevant MISO Planning Period apply even if Buyer (in its sole and absolute discretion) offers Facility MISO Capacity Credits into the MISO planning resource auction (or successor process) for such Relevant MISO Planning Period. In that instance, Buyer is responsible for any associated MISO Capacity Penalties (as described in item 45 above) that may be assessed as a result of Buyer’s capacity offer and, in exchange for taking that downside, is entitled to keep any upside from Buyer’s capacity offer.</p> <p>The Definitive Agreement will include additional credit support requirements to secure Seller’s obligations described in this item 46 that will trigger if the Substantial Completion Payment Date has not occurred within a specified period prior to the MISO Capacity Auction Deadline for each Relevant MISO Planning</p>
